

Accredited Contractor List for Land Development construction work on developer funded projects via a SA Water Land Development Agreement

Version No 3: 15th July 2020

Disclaimer

The firms and individuals on this list have represented to SA Water they have the management capability, qualifications, expertise, and experience as well as technical capability to carry out construction, installation, testing and commissioning works for water, waste water and re-cycled water infrastructure on Developer funded projects typically associated with a formal SA Water Land Development Agreement.

SA Water makes no guarantees or warranties as to the performance, commercial practices or financial status of these firms or individuals. SA Water does not endorse any of the workmanship, or services offered by the firms or individuals listed.

It is a requirement that the Person Conducting the Business or Undertaking (PCBU), usually the Developer, undertake appropriate due diligence when selecting a contractor from this list. This is to ensure the PCBU can ensure compliance with any and all applicable laws, regulations, best practice and the associated Land Development Agreement requirements e.g. technical standards, operational conditions and other applicable requirements e.g. ethical conduct.

Limitation of contractor's accreditation for a category of works

SA Water recognise there is a wide range of civil construction skills and experience within South Australia and is committed to supporting local industry participation and their upskilling.

SA Water welcome working with a developer and their preferred supplier to ensure our objectives can collectively be met whilst ensuring our workers remain safe and our new pipelines and facilities will provide the required service level to our customers and the community.

As an example of the application, the process may involve conducting a work risk assessment and developing a suitable mitigation plan prior to the commencement of works and execution of the Land Development Agreement.
